

How We Help Microsoft Dynamics GP Users

Compass Technologies helps retailers, distributors, wholesalers, and manufacturers streamline their storefront, inventory, warehouse, and back office, without ever leaving Microsoft Dynamics GP.

Compass Technologies' product suite offers solutions including, retail management, electronic payment processing, inventory management, and more. All solutions are customizable and scalable, specifically tailored for Dynamics GP users.

Additionally, Compass Technologies has a unique solution, piecework payroll processing, designed to help non-profit organizations process payroll by piece rate.

Product suite that is fully embedded in Microsoft Dynamics GP for a seamless experience.

Process retail transactions, credit cards, and gift cards in your storefront or warehouse.

Track inventory in real-time and access data anywhere you have a connection to your Dynamics GP environment.

Process payroll for piecework inside Dynamics GP the same way you process salary or hourly wages.
